THE HISTORY OF SUNROCKS

A journey of heritage and passion on the cliffs

1993

THE ORIGINAL OPENING

Sun Rocks Hotel opened its doors as one of the first boutique-style hotels on the caldera in Firostefani. Built into the volcanic rock, it embraced traditional Cycladic architecture and the natural beauty of Santorini.

1993-2020

A BOUTIQUE ICON FOR COUPLES

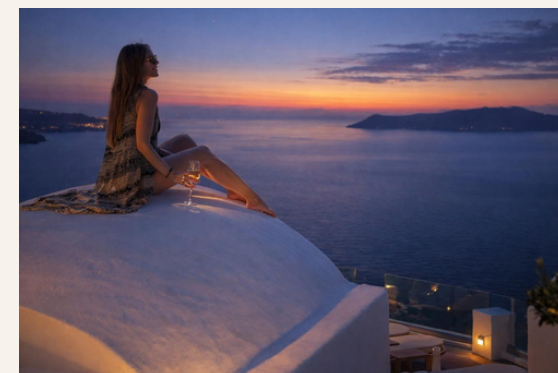

For nearly three decades, Sun Rocks was a romantic destination for couples and honeymooners from around the world. The hotel offered around 17-18 luxury suites, a cliffside pool, Faos pool restaurant, and Elea fine dining creating unforgettable memories for thousands of guests.

2021

A NEW ERA OF LUXURY

A complete luxury renovation elevated Sun Rocks to a new level. All suites were redesigned with contemporary Cycladic interiors, new infinity pool areas were introduced, Aquaz Restaurant was launched, and select suites gained private jacuzzis and plunge pools. Design by Greek architect Achilleas Kritikos brought a refined, modern vision while preserving the property's authentic character.

2025-2026
